

# MINI MEDICAL SCHOOL

## CAMP

June 11-15, 2018

Primary I  
**Grades K-1<sup>st</sup>**

Primary II  
**Grades 2<sup>nd</sup> – 3<sup>rd</sup>**

Middle  
**Grades 4<sup>th</sup> – 5<sup>th</sup>**

Upper  
**Grades 6<sup>th</sup> - 8<sup>th</sup>**

The Georgia State University Saturday School for Scholars and Leaders is proud to present a Mini Medical School Camp for students in grades K-8. This camp is great way for children interested in a future health sciences career to begin their journey towards that goal. During camp, students will submerge themselves into the world of medical science as they learn about health care careers, human anatomy and physiology, microbes, dissections, and practice diagnosing sick patients. The STEM-based curriculum encourages students to make detailed observations, analyze key evidence, and strengthen their critical thinking skills through problem based learning and hands on lab experiments.

Saturday School for Scholars and Leaders  
Georgia State University
